Hot Gang Summer

Beginner Home Program

Block One

(week 1 + 2 workouts)

Welcome to Hot Gang Summer Beginner Home Program

Hot Gang Summer isn't just a way of training, it's very much a lifestyle and a mindset. This summer we're training hard as a team, but we're doing it in the most effective and efficient way possible. Why? Because we deserve to live our lives and have fun!!

How it works

This is a 5 week program, with 4 training sessions / week. Each training session is a Full Body Workout. We are training this way to minimize recovery time and maximize results and performance! Every training session has it's own unique focus, but you'll be incorporating lower, upper, and core always. This is going to lead to a significant improvement your overall fitness level, without the need to commit to as many sessions per week.

The motto

The motto of Hot Gang Summer is "Consistent & Confident". We are in no way aiming for perfection. Instead, we're focusing on creating a consistent routine that allows us to feel our freaking best mentally and physically! Miss a workout? Please don't stress. Pick up where you left off, and know that there is no such thing as "falling behind".

Program Breakdown

As you'll see when you dive into the program, this is a very simple document that contains all the information you'll need. As always when taking on live workouts (or doing them back later on) please have this PDF accessible at all times!

Block One

Block One isn't going to be easy, but it is straightforward! So many of us are working to create a foundation for consistency in our training for the first time in a while, and I find the best way to do that is always to prioritize the fundamentals as we build that confidence muscle up again.

Live Workout Schedule!

Live Workouts will take place in the Facebook Group following this program every Monday - Thursday at 6:30am CDT throughout the Summer Series! All workouts will be saved for you to come back to anytime it works best for you.

Time to set our benchmarks...

As you know if you've been in the gang for a while now, Fitness Testing is absolutely essential! If you want to see tangible evidence at how you improve through this program, we need to test. Proper testing allows you to see where you're at when it comes to your fitness capabilities, and set reasonable and challenging goals going forward!

We are going to complete this testing now, and again at the end of our program. We are doing this to push ourselves, create a benchmark for where we are currently at, and set clear goals so that we know what we're working toward!

How this works

Hot Gang Summer takes a very different approach to fitness testing than we ever have before! It's going to be different, and I'm really excited for us to experience it together. You are going to review the following exercises, make sure you're warmed up and ready, and then select the weights needed for the following movements. Track the weight before you begin!

When you're ready, set your timer for 20 minutes and GO! The goal is to do as many rounds of the following circuit as you can in 20 minutes, and track how many you complete. When we come back in 5 weeks, you are going to absolutely crush what you were able to do today.

The rules

I have avoided any version of a time-based challenge in the past, because it typically leads to people getting sloppy and putting themselves at risk of injury! Before you take on this workout, I need you to check your ego at the door and commit to the following rules.

- 1. Under no circumstances will you sacrifice form for ego**
- 2. All reps must be PERFECT in order for them to count**
- 3. Listen to your body and take short breaks as you need**
- 4. If something feels wrong (aka the bad kind of pain) you stop immediately**

Fitness Testing Circuit

- A. Goblet Squat x 15 reps**
- B. Push-up x 15 reps**
- C. Bent Over Row x 15 reps**
- D. Overhead Press x 15 reps**
- E. Leg Raises x 15 reps**
- F. Burpees x 15 reps**
- G. Straight Jumps x 15 reps**

Notes:

- Always attempt push-ups from your toes to start, and make sure to track how many you are able to do before modifying to your knees or an elevated surface
- You are required to use the same amount of weight for each exercise the whole way through! Take short breaks through sets as needed
- Please feel free to modify burpees as much as you need to make them work for your body. Make sure to track how / if they were modified so you know for next time!
